## REFERENCE

### MR. CRISTIANO HAHN

Senior Software Engineer @ iFood  
cristianohahn.contato@gmail.com

## WORK EXPERIENCE

### Associate Application Engineer

Foretellix, Israel

— 2024–CURRENT

As an Application Engineer, you become responsible for the technical relationship between the client and the product, which includes performing both technical and personal activities

### Head of Projects

Octobit Junior, Ribeirão Preto - SP, Brasil

— 2024–2024

The Octobit junior company was created in 2023 with a bright future ahead of it given its potential. Since March 2024 I have been working as the leading project manager of the team.

### Data Engineer Intern

Instituto de Estudos Avançados - IEA USP

— 2024–2024

The institute applies data science towards better education in Brazil. Since becoming a part of the team I have refactored our database model and have been able to improve much of our workflow and development processes.

### Hilfskräfte (Intern)

BRICS - TU Braunschweig

— 2023–2024

In the context of Bioinformatics research, I conducted the data processing and engineering to build networks from datasets, in order to assert conclusions from their analysis.

### Software Engineer Intern

iFood, São Paulo - SP, Brasil

— 2021 – 2023

As a part of the financial services tribe, I worked on developing, maintaining and integrating microservices for payment systems. Within this scope I developed many skills under AWS services, such as SQS, EC2, S3, SNS and many others.

## EXTRACURRICULAR

### Computer Science Week

Event hosted by the student center of the CS course

Public Relations with partners — 2020

President — 2021
